SUMMARY

Software Engineering graduate from Al-Azhar University and front-end developer currently enrolled in the AXSOS Academy Full-Stack Development bootcamp. Experienced in building clean, responsive, and accessible UIs and collaborating on scalable back-end services. Proficient with modern front-end frameworks and tooling, and committed to writing maintainable, efficient code that delivers smooth user experiences across devices. Hands-on project work and freelancing have strengthened problem-solving, teamwork, and time-management skills.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python, Java, C++

Libraries/Frameworks: Bootstrap, Tailwind CSS, jQuery, React, Flask, Django

Databases: MySQL

Tools: Git/GitHub, RESTful APIs, Figma, Adobe XD, Photoshop, Premiere Pro

TECHNICAL PROJECTS

Dashboard Website | *Front-End Developer* | <https://amrobatish.github.io/Dashboard/>
multi-section dashboard using HTML5 and CSS3. Implemented reusable components and utility classes to keep the codebase organized and scalable. Optimized layout for different breakpoints to improve readability and navigation.

My Life Website | *Front-End Developer* | <https://amrobatish.github.io/Elbatish/>

- *Designed a lifestyle site to share books, games, stories, and events, implemented modular sections and accessible navigation, Applied semantic HTML and responsive patterns to improve readability on mobile.*

Kasper Template | *Front-End Developer* | <https://amrobatish.github.io/Kasper/>

- *Implemented a creative landing template practicing core HTML/CSS patterns (hero, features, gallery, footer).*
- *Ensured pixel-consistent spacing scale and typography rhythm.*

Leon Website | *Front-End Developer* | <https://amrobatish.github.io/Leon/>

- *Delivered a minimal agency template with clean grid layout and modern visual hierarchy.*
- *Improved responsiveness across breakpoints and refined interactive states.*

EDUCATION

Axsos Academy | *Full-Stack Developer Certificate* | CITY, STATE

Ongoing

- Part-time immersive training in Web Fundamentals, Python, Algorithms, and Data Structures
- 20-week program with **620+ coding hours**: 50 hrs pre-bootcamp, 120 hrs Web Fundamentals, 240 hrs Python, 60 hrs Algorithms & Data Structures, 60 hrs building two complete projects (Solo & Group)
- Included group activities and competitive challenges on LeetCode

Al-Azhar University | Bachelor of Engineering, Computer Software Engineering | Palestine

2019-2024

- Focused on software design, development, testing, and maintenance, using modern tools, programming languages, and problem-solving techniques.

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer | *Remote* | LOCATION

2023

- Built and shipped front-end features for small business and personal websites using HTML, CSS, JavaScript, and Bootstrap/Tailwind.
- Collaborated with clients to translate requirements into UI components and iterate quickly based on feedback.
- Refactored code and optimized assets to improve load performance and scalability; used Git/GitHub for version control and collaboration.
- Strong focus on responsive design, accessibility, and cross-browser/device testing.
